

<Annotator Name>

arg0	action	arg1	arg2	adv
PERSON	BUY	BREAD	---	---

often occurs in the situation *going to the store*

The statement above is a reasonably clear, entirely plausible general claim and seems neither too specific nor too general or vague to be useful:

Disagree	Lean toward disagree	Maybe	Lean toward agree	Agree
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
